LETTER OF RECOMMENDATION

To Whom It May Concern,

It is my pleasure to strongly recommend **Mr. Muhammad Umer Sajid (CNIC# 37301-1501820-1)** for admission to your esteemed Master's degree program.

Mr. Muhammad Umer completed his internship with Research Instruments & Measurement Systems (RIMS) Pvt. Ltd. at our facility located at National Aerospace Science & Technology Park (NASTP Alpha), Rawalpindi, from **30th June 2025** to **22nd August 2025**. During this period, he worked in our R&D department under close technical supervision and demonstrated exceptional technical competence, analytical ability, and a strong commitment to learning.

Throughout his internship, Umer contributed to several advanced engineering projects, including:

- NI myRIO & NI myDAQ Sensor Data Acquisition in LabVIEW
- Avionics LRU ATP Application Development in Python
- Portable Tester ATP Application Development in Python
- Spectrum Monitoring with USRP X310 in GNU Radio
- Opta Embedded Controller API in LabVIEW

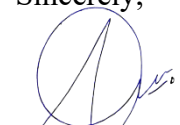

He quickly grasped complex concepts in data acquisition, embedded systems, avionics testing, and RF spectrum monitoring. His ability to translate theoretical knowledge into practical implementation was particularly impressive. Umer consistently showed strong problem-solving skills, attention to detail, and the confidence to work both independently and within a multidisciplinary team.

Beyond his technical skills, Umer displayed professionalism, integrity, and effective communication abilities. He adapted well to new challenges and maintained a positive and collaborative attitude throughout his tenure with us.

Based on his performance, technical aptitude, and intellectual curiosity, I am confident that Umer possesses the academic capability and research potential required to excel in a Master's program. I strongly recommend him without reservation and believe he will be a valuable addition to your institution.

Please feel free to contact us should you require any further information.

Sincerely,

Anam Jameel
HR Manager
